Harfacing of roll with submerged arc welding process
Adaptor hopper

Armouring with wear plate on a rotating excavator
Dredge cutter teeth

Stone crusher rotor
Hard-facing of an excavator bucket

Roller press in a cement plant
Installation with sinters with honeycomb technology

Screw flight
Sinter stars

Dredge pump casing
Pressure vessel

Cladding and joining of vessel
Repairs of heavy parts in cement plants

Reactor vessel for the petrochemical industry welded with duplex, super duplex and 309L flux-cored wires
Reactor vessel for the petrochemical industry welded with duplex, super duplex and 309L flux-cored wires

Rebuilding of Pelton turbine with Chromecore 12 4 V-G
In-situ reconstitution - Hardfaced of boiler tube walls
